Launch of the SIGI 2024 Regional Report for Southeast Asia: Time to care

18 March 2024 | 11:30-12:45 am (EST) | UN General Assembly Building, Room CR-8

Care systems in Southeast Asia rely heavily on women's unpaid work. But demographic, educational, and economic shifts are increasing the demand for paid care. What does this mean for women in the region - and what challenges lie ahead?

This event will explore the care economy's transformative power to accelerate women's economic empowerment, while strengthening Southeast Asia's resilience to external shocks.

We look forward to seeing you there!

*This event is a **#CSW68 #SIGI** side event.
Virtual participation will be possible (more information to follow).*

The OECD Development Centre expresses its sincere gratitude for the strong and long-standing support provided by the Austrian Development Agency, Ireland, Korea and Switzerland for the 5th edition of the SIGI database. The publication of the SIGI 2024 Regional Report benefited from the financial support of Korea.
